CONTENTS

Description	Page
Preface, Acknowledgement, Dedication	x
Chapter No. 1: Geography: An Introduction, Definition	1
Evolution of Geography, Greek Geographers	2
Roman Geographers	4
Arab Geographers	5
Modern Geographers	9
Branches of Geography	14
Chapter No. 2: Relations with other Subjects, Relation with Social Sciences	16
Relation with Natural Sciences	17
Significance of Geography	18
Chapter No. 3: Spheres of the Earth's Physical Environment and Their Significance	19
Lithosphere	19
Composition and Structure of Atmosphere	20
Composition of Hydrosphere	22
Composition of Bio-Sphere	23
Chapter No. 4: Study of Solar System,	24
Inner solar system	24
Outer Solar System	25
Earth as a Planet, Shape and Size of Earth	28
Revolution and Rotation of Earth	29
Theories of Origin of Earth and Solar System	32
Geological Time Scale	42
Chapter No. 5: Crustal Deformation Processes	45
Folding and its types	45
Faulting and its types	48
Weathering and its types	49
Mass Wasting and its types	54
Types of Land Forms	56
Chapter No. 6: Study of Land Forms	60
Land forms made by Volcanic process	60
Rocks and their classification	71
Fluvial process and Land forms made by Rivers	76
Cycle of Erosion	86
Land forms made by Glaciers	89
Aeolian Land Forms or Land Forms made by winds	94
Marine Land Forms/ Coastal Land Forms or Land Forms made by Sea waves	101
Internal Structure of Earth	107
Soil Formation and its profile	110
Chapter No. 7: Study of Biomes	114
Introduction, Classification of Biomes	114
Factors Affecting the distribution of Biomes	117
Ecosystem, its components and types	118
Carbon Cycle	120
Nitrogen Cycle	121
Oxygen Cycle	122
Water or Hydrological Cycle	123

Chapter No. 8: Study of Climate	126
Heating of Atmosphere	126
Horizontal Distribution of Temperature	127
Temperature Inversion	131
Heat Balance	132
Vertical Distribution of temperature	136
Range of Temperature	137
Patterns of pressure belts and global circulation of winds	139
Planetary or Permanent Winds	140
Local or Seasonal Winds	142
Mechanism of Precipitation and its types	145
Air Masses and their classification	149
Air fronts and their classification	151
Cyclones and their classification	156
Some important global climatic regions	160
Koppen-Geiger climate classification	164
Chapter No. 9: Study of Oceans	167
Ocean bottom profile or Physiography of Ocean/Coastal Configuration	167
Bottom profile of Pacific Ocean	169
Bottom profile of Atlantic Ocean	170
Oceanic Tides and their Classification	171
Oceanic Water Temperature	173
Salinity in Oceans	174
Coral Reefs	175
Factors responsible for the origin of Oceanic Currents	178
Currents of North Atlantic Ocean	179
Currents of South Atlantic Ocean	181
Currents of North Indian Ocean & Currents of South Indian Ocean	183
Currents of North Pacific Ocean	184
Currents of South Pacific Ocean	185
Chapter No. 10: Man-Environment Relationship and Study of Population	186
Environmental Determinism	186
Possibilism	189
Cultural Determinism	190
New Determinism, Scope of Population Geography	191
Population Data	193
Census	194
Population Surveys	195
Vital Statistics	196
Theories of Population, Karl Marx Theory of Population	197
Malthus Theory of Population	198
Population Theory of Esther Boserup	199
Indicators of Population Growth	201
Population Distribution or Major Clusters of World Population	204
Demographic Transition Model or Notestein Model of Population	205
Factors of Population Distribution	207
Density of Population	209
Chapter No. 11: Study of Urbanization	213
Introduction	213
Varying trends of Urbanization, Triggering Factors of Urbanization, Challenges posed by Unplanned Urbanization	214

Human Settlements, Patterns of Settlements	215
Christaller's Central Place Theory	223
Functional Classification of Cities	227
Multiple Nuclei Theory of Urban Settlements	229
Co-centric Zone Model by Burgess	231
Sector Model of Urban Settlements	233
Rank, Size, Rule of Cities or Zipf's Law	235
Rural-Urban Fringe and Its Characteristics	236
Suburbs and Their Characteristics	239
Central Business Districts	241
Comparative Analysis between Cities of Less Developed and Most Developed Countries	242
Migration and its classification	244
Chapter No. 12: Study of Agriculture Geography	246
Factors affecting agriculture growth	246
Types of Agriculture	249
Theories about origin of Agriculture	251
Constraints on Agricultural Growth	252
Economic Activities	253
Agricultural policy Guidelines & Von Thunen Model of Agriculture	255
Chapter No. 13: Study of Trade and Transportation	260
Introduction, Characteristics of Transport Services	260
Various modes of Transport	261
Study of International Trade	265
Trade Agreements	265
Changes in the Pattern of International Trade	267
Weber's Theory of Industrial Location	264
Losch's Theory of Industrial Location	271
Chapter No. 14: Study of Cultural Geography	272
Introduction, Classification of Culture, Components of Culture	272
Characteristics of Culture	274
Cultural Diffusion Processes	274
Ethnic Cleansing and its responsible Factors	276
Conflicts and their Types	280
Theories of Conflicts	284
Origin and Diffusion of World's Major Religions	287
Major Languages of the World	292
Chapter No. 15: Study of State	294
Definition of State, Elements of State	294
State versus Society	295
State versus Nation	296
State versus government	296
Types of State	297
Shapes and boundaries of States	297
Chapter No. 16: Study of Global Warming and Climate Change	299
Difference between global warming and climate change	299
Causes of global warming	302
Types and Sources of green house gases	304
Impacts of climate change	306
Steps taken by the global community to counter climate change	311
Hurdles in the way of climate change adaption	314

How to manage climate change	315
Chapter No. 17: Study of Tourism Geography	316
Introduction, Tourism Motivators, Factors Determining the Tourism	316
Effects of Tourism, Theories of Tourism, Maslow's Theory of Tourism, Philip Parse Model	317
Plug's Model, Factors behind the collapse of tourism industry in Pakistan (Post 9/11)	318
Chapter No. 18: Study of Medical Geography	320
Introduction	320
Types of Diseases	321
Evolution of Medical Geography	323
Factors Affecting health and Diseases Patterns	324
Transmission of Diseases	330
Global Eradication of Diseases	333
Covid 19 and its Socio-economic and environmental implication	334
Chapter No. 19: Study of Hazards and Disasters in Pakistan	343
Introduction, Difference between Hazards and Disasters	343
Some Major Disasters in Pakistan, Flood	344
Earthquake	346
Droughts	350
Landslides	351
Cyclones	353
Tsunami,	354
Tornadoes and their types	354
Environmental Pollution	356
Chapter No. 20: Energy Resources Utilization and conservation	359
Introduction, Types of Energy Resources	359
Renewable Energy Resources	360
Non-Renewable Energy Resources	361
Utilization of Energy Resource, Energy Conservation	362
Chapter No. 21: Recent Techniques in Geography	363
Introduction, Geographical Field Work	363
Geographic information systems (GIS)	364
Components of GIS	365
Application of GIS in various fields, Remote Sensing	366
Principles of Remote Sensing	366
Applications of Remote Sensing	368
Global Positioning System (GPS), Components of GPS, Application of GPS	369
Chapter No. 22: Study of Geography of Pakistan	370
Introduction, Location of Pakistan, Geo-Strategic Importance of Pakistan	370
Physiography/Physical Features of Pakistan	371
Major Mountain Ranges	372
The Plateaus, The Coastal Areas	377
Plain Areas	380
Deserts	381
Irrigation Networks, Irrigation Methods, Ground Water Irrigation	382
Surface Water Irrigation	384
Indus Water Treaty	385
Major Barrages, Link Canals	386
Major Dams	388

Chapter No. 23: Study of Climate of Pakistan	391
Introduction, Major Climatic Zones of Pakistan, Highland Climate, Lowland Climate	391
Coastal Climate	392
Arid Climate	393
Major Seasons of Pakistan, Major Sources of Rainfall in Pakistan	393
Monsoon Winds, Western Disturbance, Convectional Currents	394
Orographic Precipitation, Tropical Cyclones, Pressure and Wind Circulation	396
Chapter No. 24: Major Crops of Pakistan	397
Introduction, Wheat	397
Rice	399
Maze& Cotton	401
Sugarcane	403
Tobacco	404
Chapter No. 25: Mineral and Power Resources of Pakistan	406
Introduction& Non-Metallic Mineral Resources	406
Metallic Mineral Resources	409
Power Resources&Coal	410
Petroleum	414
Oil fields& Natural Gas	413
Sources of electricity	414
Thermal Power Resources	415
Hydro Power Resources	416
Nuclear Power	417
Chapter No. 26: Major Industries of Pakistan	419
Introduction, Major phases of Industrial Policy and Development	419
Major Industries & Cotton Textile	420
Jute Industry & Sugar Industry	421
Vegetable Ghee and Cooking Oil Industry& Chemicals Industry	424
Fertilizer Industries& Cement Industry	425
Iron and Steel Industry & Cottage Industry	426
Chapter No. 27: Study of Maps	428
Introduction& Components of Maps	428
Classification of Maps	429
Map Projections	434
Cylindrical Projections	436
Mercator's Projections	437
Conical Projections	438
Bonne's Projections	440
Zenithal Map Projection	441
Orthographic Projection, Stereographic Projection, Gnomonic Projection	443
Equidistant Projection	444
Conventional	445
Mollweide's Projection, Sinusoidal Projection	446
Scales and Their Types	451
Various methods of representation of relief	452
Statistical Diagrams to represent statistical data	453
Glossary	455
MCQs from Previous Papers	482
References	493
